

# Rudolf Steiner

## The First Goetheanum – A Place of Mysteries

With Patricia Dickson  
Visual Arts Collegium (USA-CA)

July 1-2, 2022

**Patricia Dickson** is the Collegium leader of the North American Visual Arts Section of the School for Spiritual Science. Her work of many years as a visual artist and sculptor at Rudolf Steiner College, her collaborations with the architect Bert Chase, her research at the Arts Section of the Goetheanum with Christian Hitsch and her deep commitment to the renewal of the arts through Anthroposophy, will be of great help in discovering and experiencing some of the mysteries at work in this unique architectural project. It is also worth mentioning that Patricia will be sharing her unique collection of images. Following the two slide-show lectures on Friday evening and Saturday morning, Patricia will be giving three clay-modeling workshops on the form metamorphosis of the capitals of the First Goetheanum. You may sign up for both lectures and modeling workshops, or for the lectures without the modeling workshops. Please contact us for payment options.
